Education

B.Tech - Electronics and Computer Engineering, 2021 – present
Sreenidhi Institute Of Science And Technology 📄

Skills

OOPS | Java | HTML + CSS | Python | Machine Learning | MERN + MEAN (basics)

Courses

Artificial Intelligence: Knowledge Representation And Reasoning, NPTEL 📄

Machine Learning Training, Internshala Training 📄

Projects

Autism Detection, Machine Learning 📄

Developed a machine learning model to predict autism spectrum disorder (ASD) in children based on behavioral and genetic data for early intervention and support.

Essay Grading, Machine Learning 📄

Developing a machine learning system for essay grading, assessing coherence, organization, grammar, and relevance to the prompt, enhancing efficiency and objectivity in educational assessment.

Crop Detection, Deep Learning 📄

Implementing deep learning models to accurately identify crop diseases from images, aiding farmers in timely disease management and enhancing agricultural productivity and sustainability.

WikiVerse, Website 📄

WikiVerse is a powerful platform designed to fetch and synchronize Wikipedia data across multiple languages.

Internships

Google, AI-ML Virtual Intern Apr 2024 – Jun 2024

AWS, AI-ML Virtual Intern Sep 2023 – Nov 2023

Royal Challengers Bangalore, Video Editor Mar 2023 – May 2023

Organizations

Ramakrishna Math, Volunteer 2021 – 2023

Involves selfless service, spiritual growth, and community engagement, fostering inner peace and harmony.

The Techvision Club, Designing Head 📄 2022 – 2024

I create engaging content for events and workshops, promoting technology and innovation as Designing Head

Awards

Hackathon Finalists, Knowvation Learnings

Interests

- Video Editing
- Poster Making
